

QUEENSLAND CURRICULUM BLENDED PATHWAY

Philosophy - a flexible, skill driven curriculum

Gen Z Alpha are visual and kinesthetic learners who thrive in environments incorporating digital media, gamification, and collaborative projects. Gen Alpha wants to **explore beyond the classroom** and have a say in what and how they learn. 'There has never been more information readily available and easily accessible for knowledge-seekers to engage with independently. Therefore, classroom experiences need to shift their focus from content mastery to meaningful and relevant, skills-based experiences that allow Zalphas to innovate and share what they know.' (Hughes, J. (2020). *Getting to Know Generation Alpha: 10 Takeaways for Higher Ed*. Keystone: Academic Solutions)

A **blended curriculum** provides a dynamic and flexible approach to education. Catering to diverse learning styles, this pathway allows students to tailor their education to their individual needs and interests. Offering a practical and industry focused experience, it promotes connection to real world learning and provides opportunities to learn outside the traditional classroom setting.

Emotional **wellbeing** is linked is closely linked to senior schooling success. By creating a balanced and engaging educational journey the BP pathway allows students to apply academic knowledge in real-world settings, enhancing their sense of purpose and relevance in their studies.

Types of Learning

Skill Driven	Flexible Learning
Industry Focused	Practical Experiences
Collaborative	Project based
Real World	Competency Based

Types of Learner

Practical	Problem Solver
Collaborative	Creative
Goal-orientated	Self-motivated
Versatile	Experiential

Senior Secondary Schooling Experiences

- ✓ Practical classes
- ✓ Mentoring from industry professionals
- ✓ Industry experience
- ✓ Traineeship/apprenticeship

Unique Characteristics

- ✓ Voice and choice in breadth and depth of study
- ✓ Combination of General and Applied subjects
- ✓ Classroom and real world learning linked
- ✓ Earn while you learn

Possible next steps in year 13

University or TAFE

Earn & learn using qualification

Employment

Cap year

Endless possibilities

Outcomes

- ✓ VET qualification
- ✓ QCE

General Subjects Offered

English	Maths	Sciences	Humanities	Technologies	The Arts	Physical Education
General English EALD	General Methods Specialist	Biology Chemistry Physics	Modern History Philosophy Geography Legal Studies	Engineering	Drama Music Music Extension	Physical Education

Applied Subjects Offered

English	Maths	Technologies	The Arts	Physical Education
Essential English	Essential Maths	Industrial Technology Skills	Arts in Practice Media Arts in Practice	Sport and Recreation

VET Courses Offered at College

Technologies	Languages
<p>Cert II Cookery/Cert III Hospitality (Traineeship) TAFE QLD/Tactile Learning (18-24 months)</p> <p>Cert II Autonomous Technologies/Cert III Aviation (Remote Pilot) Aviation Australia (18-24 months)</p> <p>Cert I Construction/Cert II Furniture Making TAFE QLD (18-24 months)</p>	<p>Certificate II/III Applied Languages Ripponlea Institute (18-24 months)</p>

Further VET offerings - off campus
